FIG. 6 / Caudal detail

Notes on the specimen

A trunk of 40 segments tapers beneath folded, webbed appendages. One appendage station repeats with five-fold symmetry. Its green hue and strong pattern amplitude establish a florid surface, interpreted here through the studio's light and material.

The captured persona describes a yielding, eager pulser, with the fixation "my ribbing." Its recorded phrase: "Ask the current; it saw everything."

Numeric traits and parentage come from the archive. Persona and naturalist narrative are generated by the preview world; engraving and internal anatomy are artistic interpretations.

Segments	40
Rib amplitude	0.197
Rib frequency	8.958
Appendages	1 station × 5-fold
Appendage length	1.033
Hue	118.924°
Pattern amplitude	0.901
Phototaxis	0.663
Gait	Pulser
Generation	68
